JOBY COIN ($JOBY)

Official Project Whitepaper & Development Roadmap

Version 1.0 | November 2026

Blockchain: Solana
Token Name: Joby Coin
Token Symbol: $JOBY
Launch Platform: Pump.fun
Website: https://jobycoin.netlify.app
X (Twitter): https://x.com/JobySPCX
Discord: https://discord.gg/JYYuRbxnB

---

1. Executive Summary

JOBY Coin ($JOBY) is an independent, community-driven cryptocurrency project built on the Solana blockchain.

Inspired by the future of aviation, electric aircraft, aerospace technology, and space exploration, JOBY brings together cryptocurrency enthusiasts and individuals who share an interest in technological innovation.

The project combines aviation-inspired branding, an original pilot-cat mascot, and community participation to establish a recognizable presence within the Solana meme coin ecosystem.

JOBY is an entertainment- and community-oriented digital token. It does not represent ownership in an aviation company, provide equity rights, or guarantee financial returns.

JOBY Coin is not affiliated with, endorsed by, or sponsored by Joby Aviation, SpaceX, or their respective subsidiaries.

2. Our Vision

Our vision is to develop JOBY into a recognizable, community-centered cryptocurrency brand that connects digital culture with enthusiasm for aviation and aerospace innovation.

We believe that strong communities are built through communication, transparency, creativity, and consistent development.

JOBY aims to create a welcoming environment where community members can follow project updates, participate in discussions, share ideas, and contribute to the project's identity.

3. Our Mission

JOBY Coin's mission is centered on four principles:

Community Development: Build an active community where members can communicate directly with the project and one another.

Transparency: Provide accessible information about the token, its on-chain characteristics, and project developments.

Brand Development: Establish a distinctive aviation-inspired identity through original artwork, website improvements, and community content.

Long-Term Engagement: Maintain an organized community presence while exploring realistic opportunities for future growth.

These principles describe the project's direction, not guaranteed outcomes.

4. Why Solana?

JOBY operates on Solana, a blockchain designed to support digital assets and decentralized applications.

Solana provides:

- Fast transaction processing.
- Generally low network transaction fees.
- Compatibility with Solana wallets and blockchain explorers.
- Access to a broad ecosystem of decentralized trading applications.
- Publicly accessible blockchain records.

JOBY is a token operating on Solana, not a separate blockchain.

5. JOBY Token Overview

Token Name: Joby Coin
Symbol: $JOBY
Blockchain: Solana
Token Program: Token-2022
Decimals: 6

Total Supply: 1,000,000,000 JOBY
Launch Platform: Pump.fun

Official Token Mint Address:

GjygtNFjdePkExHtNQu3a8UWWqwB8E2RE98jDHvUpump

Blockchain Explorer:

https://solscan.io/token/GjygtNFjdePkExHtNQu3a8UWWqwB8E2RE98jDHvUpump

The total supply and token configuration above reflect the Solscan information reviewed on November 2, 2026.

Additional supply distribution, token authority, and liquidity information is provided in the separate JOBY Tokenomics document.

6. JOBY's Identity

JOBY is built around an aviation-inspired creative identity.

Its original orange tabby pilot mascot represents exploration, curiosity, innovation, and the excitement surrounding emerging technologies.

The project's creative direction may include:

- Original mascot illustrations and graphics.
- Aviation and aerospace-inspired community content.
- Educational discussions about emerging technologies.
- Social media campaigns.
- Community-led creative participation.

References to real aviation companies or aerospace developments are for general interest and inspiration. They do not imply commercial relationships or partnerships.

7. Community and Communication

The JOBY community is being developed through its website, X account, and Discord server.

These channels provide opportunities for members to follow announcements, ask questions, and participate in project discussions.

Official Channels

Website: https://jobycoin.netlify.app

X: https://x.com/JobySPCX

Discord: https://discord.gg/JYYuRbxnB

Community members should verify official links and exercise caution when interacting with unsolicited messages or third-party accounts.

Project representatives should never require members to disclose wallet seed phrases or private keys.

8. Development Roadmap

The JOBY roadmap is organized into development phases rather than guaranteed completion dates. Activities may change based on available resources, community participation, and project priorities.

Phase 1 — Foundation and Launch

Completed or underway

- Establish JOBY Coin on the Solana blockchain through Pump.fun.
- Develop the JOBY name, symbol, and aviation-inspired brand identity.
- Establish the official project website.
- Establish the project's X presence.
- Launch the official Discord community.
- Begin community outreach and engagement.

Phase 2 — Documentation and Transparency

In progress

- Prepare and publish the official project whitepaper.
- Publish detailed tokenomics and holder-distribution information.
- Improve website navigation and accessibility.
- Make official token identification information easier to find.
- Establish clear community communication and moderation practices.

Phase 3 — Community Expansion

Planned

- Increase community participation through consistent project updates.
- Develop additional original branding and promotional materials.
- Explore community-driven activities and creative contributions.
- Improve the presentation of project information across official channels.

- Review community feedback to identify practical improvements.

Phase 4 — Project Development and Sustainability

Exploratory goals

- Evaluate opportunities for additional website features.
- Explore collaborations with independent creators or communities, subject to agreement.
- Assess potential community-focused initiatives based on available resources.
- Continue reviewing the project's direction and publishing updates when appropriate.

No exchange listing, partnership, utility feature, financial return, or completion date is guaranteed by this roadmap.

9. Transparency and Accountability

JOBY aims to provide clear communication about its current status and future objectives.

Public blockchain records allow users to review token transactions, balances, and other on-chain information independently.

Community members are encouraged to verify information using trusted blockchain explorers rather than relying solely on promotional materials.

Project plans may evolve, and changes should be communicated through official channels.

10. Risks and Important Disclosures

JOBY is a speculative meme token. Purchasing or holding JOBY involves significant financial risk.

Potential risks include:

- Substantial price volatility.
- Limited liquidity.
- Concentrated token ownership.
- Loss of some or all invested funds.
- Blockchain network disruptions.
- Smart-contract or token-program vulnerabilities.
- Fraudulent accounts, phishing, and impersonation.
- Changes in market demand or project activity.
- Regulatory and legal uncertainty.

JOBY does not provide ownership in any corporation, rights to corporate profits, or guaranteed investment returns.

No statements in this document should be interpreted as financial, legal, or investment advice.

11. Independence Disclaimer

JOBY Coin is an independently developed Solana community meme token.

It is **not affiliated with, endorsed by, sponsored by, or officially connected to Joby Aviation, SpaceX, or any other aerospace company**.

Company names and references to aviation or aerospace developments are used solely to describe the project's general thematic inspiration.

12. Closing Statement

JOBY Coin represents a community-focused effort to bring together cryptocurrency culture, creative branding, and enthusiasm for the future of aviation.

Our focus is on building a recognizable identity, encouraging authentic community participation, and communicating project developments transparently.

We invite interested individuals to explore the project, review its public blockchain information, and join the conversation through our official channels.

JOBY COIN ($JOBY)

Official Tokenomics & Supply Distribution

Version 1.0 | November 2, 2026

Blockchain: Solana
Token Name: Joby Coin
Token Symbol: $JOBY
Launch Platform: Pump.fun

---

1. Token Overview

JOBY Coin ($JOBY) is an independent, community-driven meme token operating on the Solana blockchain.

The project is inspired by aviation, electric aircraft, aerospace innovation, and space exploration.

JOBY is a community and entertainment-oriented digital asset. It does not represent equity, ownership in a corporation, or rights to company revenue.

2. Official Token Information

Token Name: Joby Coin
Token Symbol: $JOBY
Blockchain: Solana
Token Standard: Token-2022
Total Supply: 1,000,000,000 JOBY
Decimals: 6
Launch Platform: Pump.fun

Official Token Mint Address:

GjygtNFjdePkExHtNQu3a8UWWqwB8E2RE98jDHvUpump

Solscan Verification:

https://solscan.io/token/GjygtNFjdePkExHtNQu3a8UWWqwB8E2RE98jDHvUpump

Token information is based on Solscan screenshots reviewed November 2, 2026.

3. Total Token Supply

JOBY's displayed total supply is:

1,000,000,000 JOBY (One Billion Tokens)

The token uses six decimal places.

This figure represents the supply displayed on Solscan at the time of review. It should not be interpreted as a guarantee that supply can never change without considering the token's full on-chain configuration.

4. Token Distribution

Based on the Solscan holder snapshot reviewed November 2, 2026, JOBY's supply was distributed as follows:

Pump.fun Bonding Curve Vault

Tokens: 944,592,834 JOBY
Percentage: 94.46%

These tokens were held in the Pump.fun bonding-curve mechanism at the time of the snapshot. They should not be described as an individual investor's holdings or as a permanently locked allocation.

Independent Holder

Tokens: 40,216,557 JOBY
Percentage: 4.02%

This allocation represents a separate token-holding account shown in the Solscan snapshot. The holder's identity and relationship to the project have not been independently established.

Creator Wallet

Tokens: 15,190,609 JOBY
Percentage: 1.52%

This allocation represents the creator-associated wallet.

Total Token Distribution

Total Supply: 1,000,000,000 JOBY
Total Percentage: 100%

These balances represent a snapshot of token ownership on November 2, 2026. Wallet balances and distribution percentages may change as tokens are bought, sold, or transferred.

5. Bonding Curve and Trading

JOBY Coin launched through Pump.fun, a Solana-based token launch platform that uses a bonding-curve trading mechanism.

At the time of the reviewed Solscan screenshots:

- Trading Market: JOBY/SPCX
- Platform: Pump.fun
- Displayed Market TVL: Approximately $179.56
- Displayed Token Holders: 3

The Pump.fun bonding-curve vault held approximately 94.46% of the total token supply at the time of the snapshot.

This balance represents tokens associated with the trading mechanism, not an individual investor's personal holdings.

Market liquidity, token balances, and trading conditions can change over time.

6. Token Authorities and Security

Based on Solscan screenshots reviewed November 2, 2026, the following authority information was displayed:

- Mint Authority: N/A
- Freeze Authority: N/A
- Update Authority: N/A
- Metadata Pointer Authority: Null
- Token Metadata Update Authority: Null

These values reflect what Solscan displayed at the time of review.

JOBY operates using Solana's Token-2022 program, which supports additional token extensions and configurations.

The displayed authority information does not constitute an independent security audit of every possible token control.

7. Liquidity Transparency

JOBY's initial trading liquidity is associated with the Pump.fun bonding-curve mechanism.

At the time of the reviewed market snapshot, Solscan displayed approximately $179.56 in total value locked (TVL).

This figure is a historical market measurement and does not guarantee future liquidity.

The available information does not establish that liquidity is permanently locked or burned.

JOBY does not claim that liquidity is permanently locked, burned, or guaranteed to remain available.

8. Creator Holdings

At the time of the reviewed Solscan holder snapshot, the creator-associated wallet held:

15,190,609 JOBY — approximately 1.52% of total supply.

This allocation is disclosed for transparency.

The creator wallet balance may change through future transactions.

No verified vesting schedule or permanent lock on creator holdings is represented in this document.

9. Token Utility

JOBY is currently a community-oriented meme token inspired by aviation, aerospace innovation, and space exploration.

Its primary purpose is to support participation in an independent cryptocurrency community through shared interests, creative branding, and community engagement.

JOBY does not currently represent:

- Equity or ownership in an aviation company.
- Guaranteed staking rewards.
- Guaranteed investment returns.
- Rights to corporate profits or revenue.
- A guaranteed redemption value.

Any future functionality would require separate development and public disclosure.

10. Token Allocation Policy

The token distribution described in this document reflects observed blockchain balances rather than a predetermined allocation schedule.

The Pump.fun bonding-curve balance should not be interpreted as a team treasury, marketing allocation, or permanently locked reserve.

No formal team vesting schedule, token burn program, or treasury allocation has been independently verified for inclusion in this document.

Any future changes to the project's allocation policies should be communicated through official project channels.

11. Risk Disclosure

JOBY is a speculative digital asset that involves substantial financial risk.

Risks include:

- Significant price volatility.
- Limited market liquidity.
- Concentrated token ownership.
- Rapid changes in wallet balances and holder distribution.
- Potential loss of the entire investment.
- Blockchain and token-program vulnerabilities.
- Fraud, phishing, and impersonation.
- Changes in trading availability and market demand.
- Regulatory uncertainty.

Community members should conduct independent research before interacting with the token.

Nothing in this document constitutes financial, legal, tax, or investment advice.

12. Official Project Links

JOBY Solscan Token Page:
https://solscan.io/token/GjygtNFjdePkExHtNQu3a8UWWqwB8E2RE98jDHvUpump

Users should verify the official token mint address before interacting with trading platforms or third-party websites.

13. Independence Disclaimer

JOBY Coin is an independent Solana meme coin project.

It is not affiliated with, sponsored by, endorsed by, or officially connected to Joby Aviation, SpaceX, or their respective subsidiaries.

JOBY tokens do not represent shares, ownership interests, or financial rights in any aviation or aerospace company.

Document Version: 1.0
Prepared: November 2, 2026
Holder Distribution Snapshot: November 2, 2026

JOBY COIN — INSPIRED BY THE FUTURE OF FLIGHT.

JOBY COIN ($JOBY) — CREATOR WALLET DISCLOSURE

Transparency Addendum | November 2, 2026

As part of JOBY Coin’s commitment to transparency, the project owner has identified the following public address as the creator-associated wallet:

Creator wallet address

FaYMzrEuBy1wZYW2WUFh68ZBNzQYbjTxuinrfpcN1iM3PJP

Solscan verification

https://solscan.io/account/FaYMzrEuBy1wZYW2WUFh68ZBNzQYbjTxuinrfpcN1iM3PJP

Historical creator holdings (November 2, 2026 snapshot)

15,190,609 JOBY — approximately 1.52% of total supply.

This historical balance may change. The address is disclosed based on the project owner’s identification; ownership has not been independently audited. No vesting, permanent lock, or restriction on transfers is represented. Community members can review transactions and current balances using the public blockchain explorer.

This addendum supplements Section 8 (Creator Holdings) of the Official Tokenomics & Supply Distribution. The original November 2026 document is otherwise unchanged.

JOBY COIN ($JOBY)

Additional Wallet Transparency Disclosure

Project Owner — Main Wallet

K85P3ajFqXdizYHRYfWQk8Gw1bs3dDEJg5CCUiLrk8o

View wallet on Solscan

This additional wallet address has been supplied by the project owner for public disclosure. It is distinct from the previously disclosed creator-associated wallet.

Previously disclosed creator-associated wallet

FaYMzrEuBy1wZYW2WUFh68ZBNzQYbjTxuinrfpcN1iM3PJP

The November 2, 2026 creator-wallet holdings snapshot in this document refers to the creator-associated wallet, not necessarily to this additional main wallet. No holdings balance or percentage is asserted for the main wallet. Readers should independently verify current wallet balances and transactions on Solscan. Neither wallet disclosure establishes vesting, lockups, or an audit.
